

YOHAN ISHARA JAYANAKA

Senior Software Engineer | Full-Stack Developer Sri Lanka | +94 779956267 | yohanishara01@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Energetic and dedicated Senior Software Engineer with over 5 years of experience in developing high-impact software solutions using Microservices architecture. Proven track record in optimizing financial workflows, leading backend design with Java/Spring Boot, and delivering full-stack applications. Passionate about building transparent, "borderless" financial systems and driving technical excellence in Agile environments.

TECHNICAL SKILLS

- **Languages:** Java (Advanced), TypeScript, SQL, Python.
- **Backend:** Spring Boot, Spring Batch, Microservices, REST APIs, Camunda BPMN.
- **Frontend:** ReactJS, Angular, JavaFX.
- **Cloud & DevOps:** AWS (EC2, Lambda, S3, Cognito), Kafka, RabbitMQ, Docker, Jenkins, Grafana.
- **Databases:** PostgreSQL, Oracle SQL, MySQL.

PROFESSIONAL EXPERIENCE

HealthRecon Connect LLC | Southlake, Texas, USA | **Senior Software Engineer** | September 2023 – Present

- **Lead Optimization:** Spearheaded efforts to optimize patient insurance claims processing via AdvancedMD API integration, significantly enhancing billing efficiency.
- **Performance Engineering:** Designed and implemented Spring Batch workflows for data rendering, achieving a **40% increase in processing efficiency** and enabling a team expansion of 5 data analysts.
- **Architectural Ownership:** Designed and implemented robust, scalable backend components using Java, Spring Boot, and PostgreSQL.
- **System Integration:** Managed secure API interactions through Spring Cloud Gateway and Spring Feign client to ensure seamless third-party service connectivity.

Dialog Axiata PLC | Colombo, Sri Lanka | **Software Engineer** | August 2021 – September 2023

- **Workflow Automation:** Designed Camunda workflows for approval processes, reducing processing time and increasing customer satisfaction.
- **Cloud Leadership:** Proactively suggested and migrated user management to **AWS Cognito Pool** from Keycloak to enhance security and scalability.
- **High-Availability Systems:** Optimized backend systems for on-demand bandwidth upgrades using Camunda listeners, ensuring reliability during peak demand periods.
- **Full-Stack Development:** Developed "OneFlow," a workflow management platform using Java and Spring Boot to streamline cross-team task assignments.

Dialog Axiata PLC | Colombo, Sri Lanka **Associate Software Engineer** | March 2020 – August 2021

- **Product Activation:** Developed APIs for order management systems that streamlined product activation for corporate customers.
- **Operational Excellence:** Managed live issue resolution and implemented new features for mission-critical processes.

Institute Of Software Engineering (IJSE) | Panadura, Sri Lanka **Associate Developer – Full Stack** | August 2019 – February 2020

- **End-to-End Development:** Built a comprehensive Point of Sale (POS) system using **Angular (Frontend)**, **Spring Boot (Backend)**, and **MySQL**.
- **Framework Engineering:** Developed a custom ORM framework using Core Java to automate database interactions.

EDUCATION

- **Master of Information Technology** – University of Kelaniya, Sri Lanka.
- **Comprehensive Master Java Developer** – IJSE, Sri Lanka.
- **Higher National Diploma in Electrical Engineering** – University of Moratuwa, Sri Lanka.

CERTIFICATIONS

- Advanced Java Threads (LinkedIn).
- AWS Fundamentals (Coursera).
- Spring Framework (Udemy).
